in the good old state of Texas.

When he first arrived there he noticed that the corners of all the buildings were worn off until they were beautifully rounded about six feet from the ground. This phenomenon, Mr. Kendall found by careful observation to be caused by the general practice of the natives in leaning against the buildings, not possessing sufficient energy to maintain an upright position. On returning here he at once began a study of Bisbee corners and was glad to note that all are perfectly "on the square."

It is one of those popular priced cars—at least enough of the original lines are left unconcealed to establish its relationship to brother Henry and sister Lizzie. Wire wheels, gray paint, a de luxe top and a new hood have added originality, but on the radiator the aspiring owner has achieved a master stroke. The familiar script trade mark has been removed from some car and now "Rolls Royce" in heavy brass letters unrolls its aristocratic line across the radiator.

## MARICOPA CO FLOOD DAMAGE LIGHT THIS YEAR

PHOENIX, July 12.—Property damage in Maricopa county this year owing to floods is much less than in 1918, according to W. R. Elliott, superintendent of the Salt River Valley Waters Users' association.

Following last night's storm, reports received here were that the Hassayampa river had risen 3½ feet and that at Wickenburg and beyond Buckeye, the crossing points on the two automobile roads to the coast might be found impassable. It was expected that the flood stage of the river would subside within 12 hours.

Three small breaks were made in the Arizona canal by flood waters, but officials reported tonight that there had been no damage of any importance and irrigation had not been interfered with. Irrigation is being handled with flood water and the regular water will be turned in again as soon as the flood has gone down.

Cave creek and Queen creek both went to high flood stage yesterday, said reports received here tonight, but the former was stated to be going down again without having done damage. As a result of the Cave creek rise, Black canyon was said to be impassable, as was the Thomas road, which, however, is expected to be open for traffic tomorrow.

## ARIZONA LEGION WILL HOLD ITS CONVENTION AT GLOBE IN 1920

TUCSON, July 12.—The first convention of the Arizona division of the American Legion closed here tonight with the home coming celebration of add service men, at which Dr. R. B. von Kleinsmid, president of the University of Arizona was the chief speaker.

At the concluding session of the convention, Walter Sandberg of Yuma was elected state vice commander of the legion and the following were elected members of the executive committee: George H. Myers, Flagstaff; A. J. Dettloff, Bisbee; George W. Nilsson, Prescott; R. M. Alton, Clifton; Oscar Ruggles, Phoenix.

The following were elected delegates to the national convention: John C. Greenway, Warren; E. M. Robinson, Flagstaff; Cliff Fairies, Globe; Lewis S. Douglas, Jerome; Power Conway, Phoenix; Gerald Jones, Tucson.

The next state convention will be held at Globe, Ariz., on the second Monday in August, 1920.

Phoenix was selected as state headquarters of the legion over the opposition of the Cochise delegation, Ira B. Joralemon declaring that the headquarters should be at the home of the legion commander, and further, that the headquarters at Phoenix would make the legion susceptible to state politics.

The legion passed resolutions condemning those responsible for the alleged protection of conscientious objectors and demanding an investigation by congress; condemning the I. W. W. international Socialists and anarchists; denouncing the misuse of the flag and uniform in business endorsing the so-called Lane soldier settlement plan; demanding re-employment of returned soldiers; for the protection of service men's rights under the war risk insurance act; favoring equal suffrage, and condemning the use of military titles by civilians and others.

### CHAPPEL AWARDED DECISION

## CITIES OF COCHISE COUNTY PAY 90 PCT. OF COUNTY TAXES

## Corporations Pay All But 4 Per Cent of Total Taxes; County Treasurer's Figures Shows Interesting Comparisons.

The following report has been compiled by County Treasurer Guy C. Welch at the request of the board of supervisors showing the proportion of taxes that are paid by the corporations in the county and the amount paid by the individuals. The report covers the period from September, 1918, to May, 1919, of county and city taxes paid. The amount of city taxes that are collected by Mr. Welch are shown in the report but are deducted from the totals so that the amount of taxes paid by the corporations in the county is given as well as that paid by the small taxpayers in the county and city.

While the report does not show the delinquent taxes due according to figures furnished by Mr. Welch the amount was \$51,000 when the taxes became delinquent in May. Since that time there have been several thousand dollars paid so that the amount now delinquent is less than \$40,000 out of nearly two million that was on the tax books to be collected.
